

04-IWCI-17

4th International Water Conference Islamabad

19-21 September 2017 | Islamabad Club | Pakistan

Call for Papers

The Theme of International Water Conference is

“Climate Change & Disaster Risk Management for Sustainable Development & Businesses”

The conference encompasses the following sub-themes:

- Climate change, water, food & energy security
- Disaster risk reduction, safety planning & business continuity
- Water scarcity & resource management
- Impact of industrial effluents & water quality
- Socio-hydrology & Trans-boundary diplomacy and Perspective

Selected papers will be considered for publication in Journals recognized by HEC

Scarcity and misuse of fresh water pose a serious and growing threat to sustainable development and protection of the environment under the umbrella of COP22. The climatic impact on ecosystems is leading to; water scarcity, resources paucity and food security and disaster repercussions. This conference has the objective to mobilize and to ensure the engagement of; academia, businesses, R&D organizations, researchers, industry, international development entities, experts as well as the civil society by placing a common platform to put forward best efforts to strengthen the ecosystem. The Conference participants will chalk out fundamental new approaches to the; assessment, trends, research findings and development and management of freshwater resources and disaster reductions strategies in context with Climate Change phenomenon which can only be brought through political commitment and involvement from the highest levels of the stakeholders.
